

# Got a Concussion? Know the Signs and Symptoms

The following signs and symptoms can show up immediately or may not appear for days to weeks following the injury. If you think your child or teen has a concussion, contact their health care professional.

## Signs Observed

Appears dazed, stunned or moves clumsily

Answers questions slowly, forgets instructions

Can't recall events prior to or after a hit or fall

Loses consciousness (even briefly)

Changes to Mood, behavior or personality

## Symptoms Reported

Headache or "pressure" in head

Nausea or vomiting

Balance problems, dizziness, or blurry vision

Sensitivity to light or noise

Feeling sluggish, hazy, foggy, or groggy

**Take your child to the emergency room if they are experiencing increased drowsiness, repeated vomiting, worsening headache, slurred speech, increased confusion, or convulsions/seizures.**
